STAT 1378: A Thomas Fung Appreciation Society

Assignment 3

30 October 2021

Intro

Bananas in Pajamas

MACQUARIE University SYDNEY·AUSTRALIA

- Bullet 1

Use `\alert` to **highlight** some text

Some enumeration

Bananas in Pajamas

- Bullet 1
- Bullet 2

Use `\alert` to **highlight** some text

Some enumeration

Bananas in Pajamas

- Bullet 1
- Bullet 2
- Bullet 3

Use `\alert` to **highlight** some text

Some enumeration

Bananas in Pajamas

- Bullet 1
- Bullet 2
- Bullet 3

Use `\alert` to **highlight** some text

Some enumeration

1. The first item

Bananas in Pajamas

- Bullet 1
- Bullet 2
- Bullet 3

Use `\alert` to **highlight** some text

Some enumeration

1. The first item
2. Stuff

Bananas in Pajamas

- Bullet 1
- Bullet 2
- Bullet 3

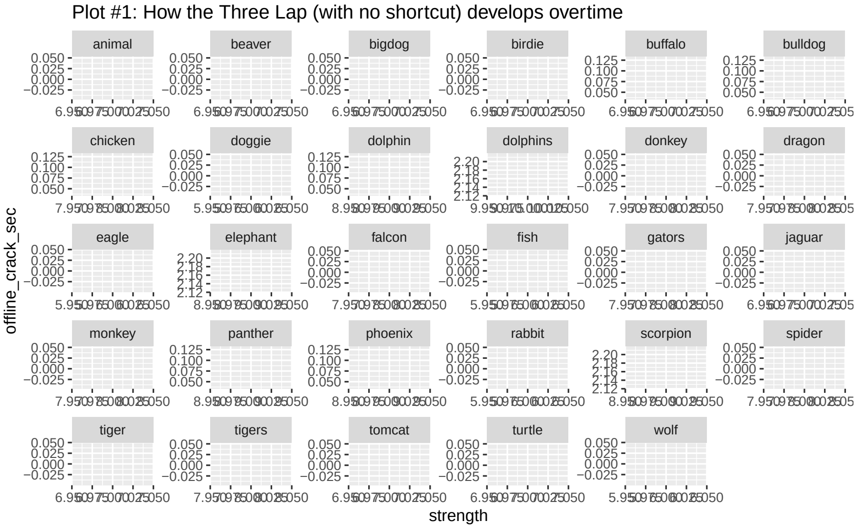
Use `\alert` to **highlight** some text

Some enumeration

1. The first item
2. Stuff
3. Nonsense

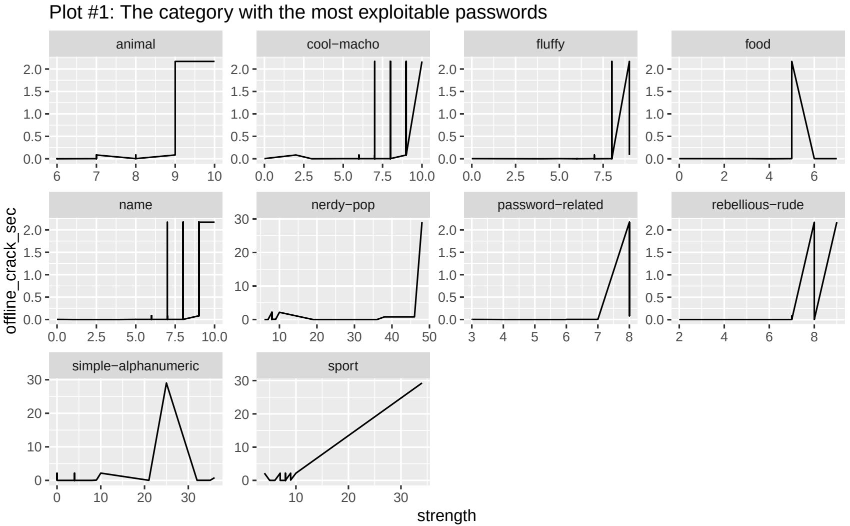
Using R

Slide with R output



```
## # A tibble: 29 x 9
```

Hello



A tibble: 499 x 9

Slide with mathematics

Suppose $X_1, X_2, \ldots, X_n$ are independent and identically distributed random variables with common cumulative distribution function F_X with support on $\mathbb{R}$. The empirical cumulative distribution function is defined with,

$$F_n(x) = \frac{1}{n} \sum_{i=1}^{n} I_{(-\infty,x]}(X_i)$$

where $I_A(x)$ denotes the indicator function for the set A. The following theorem provides uniform covergence for F_n

Glivenko-Cantelli Theorem

If X_i are i.i.d. with common cdf F then,

$$\|F_n - F\| = \sup_{x \in \mathbb{R}} |F_n(x) - F(x)| \xrightarrow{n \to \infty} 0 \quad \text{almost surely.}$$

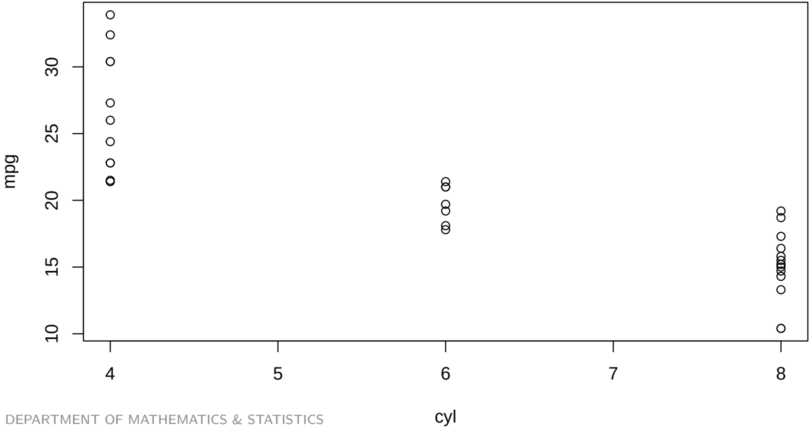
- See Vaart and Wellner (1996) for more information on Empirical processes.

A slide with no header if you need more space.

RMarkdown Examples

R Figure

```r
plot(mpg ~ cyl, data = mtcars)
```



R Table

A simple `knitr::kable` example:

```
knitr::kable(head(mtcars),
      caption="First few observations of the mtcars dataset")
```

Table 1: First few observations of the mtcars dataset

	mpg	cyl	disp	hp	drat	wt	qsec	vs	am	gear	carb
Mazda RX4	21.0	6	160	110	3.90	2.620	16.46	0	1	4	4
Mazda RX4 Wag	21.0	6	160	110	3.90	2.875	17.02	0	1	4	4
Datsun 710	22.8	4	108	93	3.85	2.320	18.61	1	1	4	1
Hornet 4 Drive	21.4	6	258	110	3.08	3.215	19.44	1	0	3	1
Hornet Sportabout	18.7	8	360	175	3.15	3.440	17.02	0	0	3	2
Valiant	18.1	6	225	105	2.76	3.460	20.22	1	0	3	1
